DESCRIPTION OF OFFERING:

Peter Narum has been teaching the Enneagram for over 15 years (having received training from Palmer, Riso & Hudson). The Enneagram is not a "personality typing tool" as much as a map of nine basic patterns of "stuckness" — "you don't see things as they are; you see things as you are."

Learning the Enneagram can be a helpful way of becoming more aware of unhealthy (and universal) patterns that inhibit us from greater spiritual and relational health. The Enneagram is not a Christian tool per se but it can help us be more receptive to the love the Spirit of Jesus is always offering. It is useful for personal spiritual growth, leadership training, and becoming healthier communities (marriage, staff, congregation).
