WEBSITE URL: WWW.PRACTICEDISCIPLESHIP.ORG

DESCRIPTION OF OFFERING:

The goal of Practice Discipleship is to provide training resources for our congregations. Our hope is to raise leaders for the sake of faith formation, who are sent out to help others grow in faith. Curriculum may be presented as workshops or training modules for individuals, groups, committees, councils, volunteers, staff, etc. We can also turn material into interactive sermons, table/group discussions, and displayers/Vendors for events.

Material focusses on the seven faith practices with a yearly theme. For 2015, the theme is "Story." We explore how we tell our story as part of God's story. Seven workshops are available this year including: Living in Stories, Story of Self and Other, Story of Faith Community, Story of Place and Displacement, Story of Adolescence, Story of Service, and Story of Scripture. We also have access to the last three year's programs that focus on group building and framing your ministry.
