DESCRIPTION OF OFFERING:

God's great gift of music is a miracle we can experience each and every day. It expresses human emotion in ways nothing else can.

In my 33 years of music ministry, I have always tried to communicate this emotion, particularly; the love, joy and thankfulness a congregation stirs up during worship. As an improvising musician, familiar hymn melodies, both old and new, come alive spontaneously and create a "one of a kind" worship experience.

I believe music is an important force in our lives. My mission is to bring my experience of its power to many congregations. Primarily, this is a Sunday morning ministry meant to reach your largest gathering of worshipers. Many South-Central Synod ELCA members are already familiar with my work. I have accompanied and/or directed many Synod Assemblies and other large gatherings of Lutherans over the years.

Hard-working church musicians need vacation time. If you are looking for a Sunday substitute or just want to try something different, contact me.
