DESCRIPTION OF YOUR OFFERING:

One of the things you do as the church is to help educate leaders for younger churches throughout the world by sending missionaries abroad to teach in seminaries. Through the ELCA's Division for Global Mission you have sent me to the Lutheran Theological Seminary in Hong Kong (LTS). LTS is an international seminary, with students not only from Hong Kong and mainland China but also from many other countries in Southeast Asia, such as Indonesia, Malaysia, Myanmar, Laos, Cambodia, Vietnam, and Nepal to name just a few.

In my presentation, I will show you how your ministry of education is bearing fruit in the students I teach and the churches they represent. We will look at some of the issues these leaders are preparing to face in their churches and in their countries, including Hong Kong and China itself. We will look at the ways they try to deal with these issues in faith, and at the missions they are engaged in. Prepare to be inspired by and connected with Christians on the other side of the world.
