DESCRIPTION OF YOUR OFFERING:

Want to know how the ELCA is at work throughout the world? The Young Adults in Global Mission (YAGM) Program is just one example of how the church is engaging with our brothers and sisters across the globe. This program calls young adults to be the hands and feet of Jesus in communities of need while serving through a spirit of accompaniment.

I would be more than happy to share stories of accompaniment, spiritual growth, and relationship building from my year of service at a dairy cooperative in rural Senegal.

I am open to preaching, presenting, sharing stories with small groups, or any other arrangement you desire.
