DESCRIPTION OF YOUR OFFERING:

Last year I lived in a rural village in South Africa called Rorke's Drift. I volunteered at an art and craft centre and an old age home.

An hour drive down a dirt road from the closest town, Rorke's Drift was still experienced much traffic. Tourists from around the world pass through for a day at the museum and purchasing of local crafts. My community is placed upon a battlefield site of the British soldiers and Zulu warriors.

Most tourists were white, just passing through this black community. Throughout my YAGM year I struggled with looking like the tourists.

Being present in this community was a blessing to me. I have learned about love, humility, hope and the big, bold, beautiful body of Christ! I would love to share more with this synod about the program that brought me to a home abroad.
