

Racial Equity Ministry Team

The Racial Equity Ministry team was formed in 2017 in response to the synod assembly resolution mandating the provision of educational events related to promoting racial justice and also the National Church Memorial mandating each synod to provide anti-racism training for all rostered individuals.

Mission Statement:

The Way Out is Back Through

*As people who have been reconciled to Godself through Christ,
our mission is to seek reconciliation
with all our brothers and sisters.*

This is a reflection of our objective of providing educational events throughout the synod that promote an increased awareness of racial injustices that currently exist and to learn about the historical background of racism in our Western culture and specifically the United States. We seek to inform the synod so that going forward our work as a church is a reflection of the welcoming reign of Jesus where all human beings are brothers and sisters and we live out the mandate of seeking reconciliation.
