DESCRIPTION OF YOUR OFFERING: Join the Movement organizes community conversations about human trafficking specifically, internet safety and social media and how it plays into human trafficking. How we as a community can protect our neighbors, friends, children from predators before it's too late. Human Trafficking is in all 72 counties in the State of Wisconsin. The Traffickers/Predators are becoming more sophisticated right along with the technology industry. Even our laws can't keep up with the ongoing changes in technology...but, predators are. Law enforcement can't do it all and they need the help of communities coming together to assist this battle.

My full-time position is as Family & Outreach Ministry Coordinator for Sugar Creek Lutheran Church. The church is very supportive and encouraged by the work Join the Movement is doing. I give presentations all over the State and have been helping an organization in Illinois create a task force.
